About Future Labs Technology

20 Years of Experience in IT Training.

Future Labs technology is the best global training Company for anyone looking to upgrade their knowledge. We understand that jobs may at times require you to upskill yourselves to get ahead in your organization. We also understand that some people have a passion for learning that cannot be quenched.

OUR VISION

Our vision is to be the leading learning platform for all professionals globally. Our goal is to empower professionals with decision-making tools, training, and expertise to transform their career by technology.

OUR MISSION

To provide IT training and education and help people shape a better career path. We are committed to providing high-quality learning experiences for all our students.

Learn Something New & Build Your Career From Anywhere

our courses have been designed to meet the individual needs of our trainees. The courses are self-paced and can be finished in your own time. Our top-notch trainers provide first-class instruction to students and get them ready to face success in this sap world.

Welcome to Future Labs Technology!

A premier training institution.

What sets apart?

At Future Labs Technology, our engagement model revolves around the dynamic cycle of understanding, collaboration, engagement, and delivery. In an era where technology is ever-evolving, upskilling is not a choice but a necessity. We tailor our programs to equip learners.

Quality content is the cornerstone of effective learning! Our curriculum is crafted precisely, offering clear, comprehensive, and market-relevant programs. Understanding the pulse of the industry is crucial. Our programs are designed to address the current needs of the industry, providing learners with a strategic advantage in their career paths. In the heart of our philosophy lies a learner-focused approach.

We understand that each learner has unique learning needs. Our experts are dedicated to create an environment that nurtures curiosity and encourages active participation of our learners both academically and professionally.

Pratik Vimal, CEO

"I ask those of you with bold ideas and big dreams to play your part in our new campaign, Forever Forward. Together, we start unlocking the destiny. Happy Learning"

OUR COLLABORATION

Swedish Chamber of Commerce India

#SAMBANDHSTORIES 3.0

#SambandhStories is a series of short interviews with our members and collaboration partners on different topics of interest. This is the third chapter in the series.

Pratik Vimal is the Founder & Business Head at [InFront Technology](#), one of our newest members. InFront is an IT consulting and digital marketing company, providing niche SAP solutions designed to help you overcome roadblocks in the pathway of your business growth and success.

As we come to the end of 2022, what were some of the key highlights for you and what are you looking forward to building in 2023?

After passing of each year, we become extra responsible and sustainable in approach and operation. Being an IT consulting and digital marketing company, we have contributed in multiple ways to achieve sustainability, both within and outside the organization. Our 2022 "No Plastic" campaign went really well, with everyone pitching in. During this summer, our other campaign "two hands, two plants" was also successful and we have planted more than 500 plants in Delhi/NCR.

We are scaling up our small initiatives such as plantation, water management etc. In Q1 2023 we will run a campaign on "green is the new normal" where we are collaborating with more similar-sized organizations and aiming for 5,000 plantations. We are running a year-round water campaign and aiming to reduce water wastage by 30 percent. We are also working on a waste management application where we are in early stage and hoping to commence the pilot in Q3 2023.

How do you see sustainability continue to redefine priorities and goals in your organisation in the next 3-5 years?

To solve the environmental challenges that our world is facing, we need collaborative efforts, an interdisciplinary approach, and real-world applications. We always believe in small steps and small wins make a big difference in the real world.

We at Infront technology inherited the sustainable approach in our consulting, product development, and daily operation. Our kids deserve to have a sustainable society and we are committed towards building one together. The plan is to scale up our initiatives and more international partnership to achieve sustainability together.

Thank you, Pratik!

ABOUT COURSE

SAP Job Oriented Program for Fresher & working professionals.

Future Labs Technology is giving job oriented training in the area of SAP by giving real-time project experience and hands-on required to crack the SAP jobs interview. FLT is led by SAP industry experts and preparing for SAP jobs to become an SAP consultant. Come and join the Future Labs Technology program.

SAP JOB READY EXCLUSIVE CURRICULUM Total- 60 Hours

MODULE TRAINING (40 HOURS)

1. Introduction of ABAP

- Logon to SAP Environment
- Transaction Codes
- Multitasking Commands
- Comments
- Errors
- ABAP/4 Editor (SE38)
- Steps for Creating a Program
- Elements in R/3 Screen
- Output Statements
- Operators in ABAP
- Data, Parameter & Constant Statements
- Data Types & Classification
- Data Objects & Classification
- Text Elements
- String Operations
- Control Statements
- Field strings

2. ABAP Dictionary Introduction

- Data Dictionary Functions
- Data Dictionary Objects
- Data Base Tables
- Structures
- Views
- Data Elements
- Type Groups
- Domains
- Search helps
- Lock objects
- Primary Key And Foreign Key
- Table Maintenance Generator

3. SAP ABAP Packages

- Creating a package
- Difference between local objects & packages
- Transferring local objects to packages

4. SAP ABAP Variants

- Variants Introduction
- Creating variants in ABAP Editor & Data Dictionary

5. SAP ABAP Message Classes

- Message Class Introduction
- Message types
- Calling message class in Report & Dialog programs

6. Selection screen Introduction

- Parameter Statement
- Select-options Statement
- Selection-screen Statement
- Screen table and its fields
- Dynamic screen modification by using Modif Id key

7. SAP ABAP Open SQL Statements

- Select
- Insert
- Modify
- Update
- Delete

8. SAP ABAP Internal Tables

- Types of Internal Tables
- Declaring Internal Table
- Populating Internal Table
- Processing Internal Table
- Initializing Internal Tables
- Inner Joins And For All Entries
- Control Break Statements

9. Debugging Techniques

- Debugging Techniques Introduction
- Break-points (Static & Dynamic)
- Watch points and call stack
- Dynamically changing internal tables contents in Debugging Editor
- Options to step through the program in Debugging Editor

10. SAP ABAP Modularization Techniques

- Modularization Techniques Introduction
- Includes
- Subroutines
- Passing Parameters to Subroutines
- Passing Tables to Subroutines
- Function Groups & Function Modules

11. SAP ABAP Reports

- Reports Introduction
- Classical Reports
- Interactive Reports
- Techniques Used For Interactive Reports
- Hotspot
- Hide
- Get Cursor
- ALV Reports
- Interactive ALV Reports
- Saving Report Output to PDF
- OOPs ALV
- SAP Query

12. Dialog / Module Pool Programming/ Transactions

- MPP Introduction
- Relationship between Screen, Flow Logic and Program
- Screen Painter
- Menu Painter
- Creating Transaction Codes
- Flow Logic Events
- Process Before Output (PBO)
- Process After Input (PAI)
- Process On Value Request (POV)
- Process On Help Request (POH)
- Include Programs in MPP
- Dynamic Screens
- Leave Screen
- Leave to Screen
- Call Screen
- Set Screen
- Processing of List from Transaction and Vice Versa
- Elements in Screen Layout
- Table Controls
- Tab strip Controls
- Sub screens

13. SAP ABAP OOPS Concept Training

- Object Oriented ABAP Overview
- Defining a Class
- Implementing a Class
- Encapsulation and Implementation Hiding
- Object Initialization and Cleanup
- Inheritance
- Polymorphism
- Dynamic Method Call Binding
- Interfaces
- Interface Inheritance Vs Implementation Inheritance
- Inheritance Vs Composition

14. SAP ABAP Batch Data Communication

- BDC Introduction
- Recording
- BDC Methods
- Call Transaction Method
- Session Method
- Handling Table Controls in BDC

15. Legacy System Migration Workbench(LSMW)

- Different Methods
- Flat file creation
- Uploading data
- File Handling
- Application Server
- Presentation Server

16. SAP ABAP Scripts

- SAP Scripts Introduction
- Components of SAP Scripts
- Layout Set
- Standard Text
- Out Put Program
- Modifying Standard SAP Script Layouts
- Including Logos
- SAP Script Utilities – Upload / Download

17. Smart Forms

- Smart Forms Introduction
- Graphics Management
- Style Maintenance
- Paragraph Formats
- Character Formats
- Writing print program and designing layouts

18. Runtime Analysis & SQL Tracing Cross Applications

- Introduction to Distributed Environment
- Introduction to Cross Applications

19. RFC

- Introduction to RFC
- Creating RFC Destination between 2 Systems
- Creating Remote Enabled Function Modules
- Creating program using Remote Enabled Function Modules

20. ALE

- IALE Basics
- Overview of Outbound & Inbound Process
- Configuration Steps
- Define logical systems
- Assign client to logical system
- RFC destination
- Customer distribution model
- Creating Ports

21. IDocs

- What is an Idoc?
- Types of Idocs
- Basic Idocs
- Extension Idocs
- Creating Idocs
- Message Types
- Assigning Idoc type to Message type

22. EDI

- EDI Basics
- Difference between ALE & EDI
- Overview of Outbound & Inbound Process
- Configuration Steps
- Port Creation
- Partner Profile Creation

23. SAP ABAP BAPIs

- BAPI Overview
- Creation of BAPI
- Finding Standard BAPIs
- Enhancing Standard BAPIs

24. SAP ABAP User Exits

- User Exits Overview
- Finding and Implementing User Exits
- Customer Exits Overview
- Finding and implementing Customer Exits
- Types of Customer Exits
- Field Exit
- Screen Exit
- Function Exit
- Menu Exit

25. SAP ABAP Miscellaneous Topics

- Correction & Transport request (CTS)
- Transport Organizer
- Work Bench Request
- Task Creation
- Release Objects
- SAP Memory & ABAP Memory
- Logical Database

26. ABAP Meets SAP HANA

- SAP HANA Ambitions
- Hardware Technology innovations
- SAP Software Technology innovations
- SAP HANA Goals
- Evolution of ABAP for SAP HANA
- Possible Type of SAP HANA Based Applications
- Highlights of SAP Netweaver Application Server ABAP 7.4

27. What we need to know

- Row store
- Column store
- When to use columnar storage
- When to use row storage
- Demo
- Column store dictionary compression
- Code to data Paradigm
- Implications of an in-memory database
- Overview code to data capabilities
- Performance improvement vs code adjustments
- Your Development Tools
- System Demo to write “Hello World”
- Short cuts

28. The existing code is still valid

- Migration to SAP HANA
- Code Continuity
- Mandatory Adaptations
- ABAP Test Cockpit
- Runtime check Monitor

29. What About Performance

- Performance consideration
- Classical performance guidelines and additions
- Code Inspector check variant PERFORMANCE_DB
- Demi
- Static performance check coverage

30. SQL Footprints in your productive System

- Example of productive ERP System
- SQL Monitor
- Architecture
- Administration of the SQL Monitor
- Analysis of SQL Monitor Data
- Demo

31. Guided Performance Analysis

- Combination of code check results
- SQL Performance Tuning Worklist demo
- Recommended procedure

32. Optimized ALV and Other Improvements

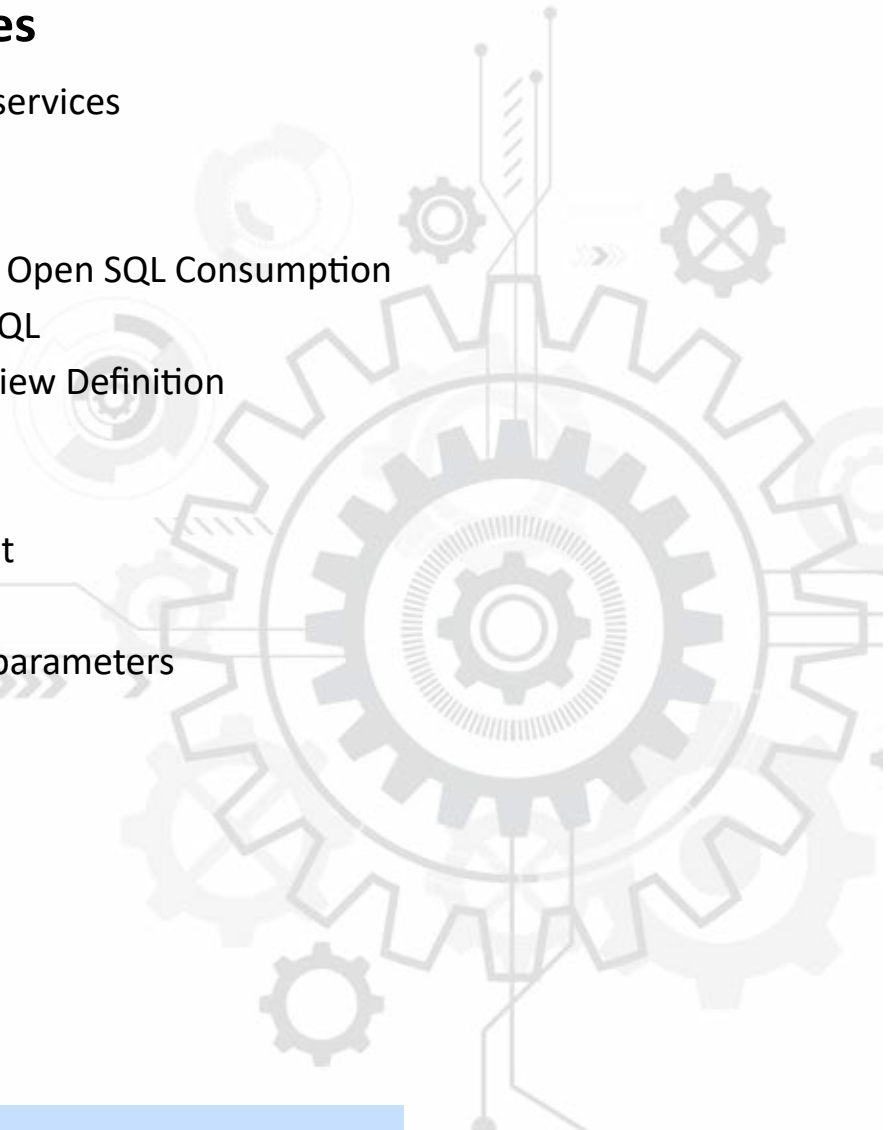

- Transparent Optimization
- ALV Integrated Data Access demo
- ALV integrated data access
- Search help
- Demo on search help

33. Recent Open SQL Enhancements

- EPM
- What is Open SQL
- Demo
- What's new in Open SQL
- Literal Value and a generic existence check
- Expressions
- Demo
- Conditional Expression
- Expressions in Group by having clauses
- Automatic client handling

34. Core Data Services

- Introduction to CDS services
- CDS in ABAP
- Demo
- Simple CDS View and Open SQL Consumption
- CDS views vs. Open SQL
- Core Data Services: View Definition
- Demo
- Projection list
- View-on-view concept
- CDS View Extensions
- CDS view with input parameters

35. Core Data Services: Associations

- Demo
- UNION & UNION ALL Statements
- Join statements
- Simple association
- Association types
- Filter associations

36. Native SAP HANA Using in ABAP

- ADBC
- DEMO
- ABAP Database Connectivity: Typical code
- Native SQL Pitfalls
- Consumption of an SAP HANA Database procedure with ADBC
- Consumption of an ABAP Managed Database Procedure

37. ABAP Managed DBMS

- Introduction of AMDPs
- Demo
- Class definition
- Class implementation
- Consumption and artefact creation
- Exception Handling
- AMDP Exception Hierarchy
- AMDP BAD

38. Domain-Specific Usage of CDS

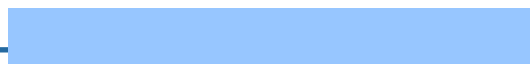

- CDS Annotation Concept
- Demo
- Consumption

39. Miscellaneous

- MM-PP Integration
- S4 HANA MM PDF Course Slides

40. Certification Exam

- Certification Style Questions 1
- Certification Style Questions 2
- Certification Style Questions 3

GLOBAL TOWNHALL EVENTS (5 HOURS)

Future Labs Technology is the place where experts gather to provide you with the best results for your career.

The objective behind our town hall is not only business but rather it is an initiative to assist young learners as you in helping you with your career journey and aspirations. Through our workshop, we aim to be your guiding light on the path to success, your growth and success are our primary motives for our Town hall.

It's not exclusively for achievers, but for eager learners like you who are seeking career guidance. We believe that everyone needs to grow and we're here to help you with that in your bright future.

INDUSTRY ENABLER PROGRAM (15 HOURS)

Extra Miles We Offer |  7 Hours

1. ADVANCED LATEST TOPIC

- LSMW

I've enrolled for SAP FICO hana course in FLT and it has been an amazing experience learning FICO with Raghav Sir. I'd 100% recommend to take Raghav sir classes as he truly cares about his students. Thank you for teaching us in most friendly way possible. Also, FLT has been very supportive from the day one. I appreciate how Preeti, Abhita helped me whenever I needed them. I hope to be a part of FLT throughout. Thank you.
